

Collaboration is at the heart of everything that NEPO does

Our procurement solutions are the result of consultation with the public sector, suppliers and end users, so that we deliver positive outcomes for the communities we serve.

Our portfolio of over 70 solutions is available for use by any public sector body across the UK via our free associate membership scheme.

We are the public sector

Our procurement solutions are designed by the public sector, for the public sector.

NEPO is a collaborative partnership of the twelve North East local authorities, we listen and consult with colleagues within procurement teams, and across service areas, to ensure that our portfolio of construction solutions meet their needs.

As a member of the National Association of Construction Frameworks and the LGA Construction Category Board, NEPO is committed to driving best practice and continuous improvement within the construction market.

NEPO's solutions are available for use by any public sector organisation including local authorities, NHS trusts, transport authorities, schools, colleges and universities.

“NEPO strive to provide our Members and Associates with a range of high-quality construction solutions that meet their needs. The ongoing delivery of effective solutions hinges on achieving an optimum balance across all stakeholders including NEPO, it’s Member Authorities and Associate Members, suppliers, industry experts, networks, local communities among many others.

“We are lucky that within the North East we have established relationships with many stakeholders we want those to flourish over the coming years with all of us working together to deliver solutions that work for everyone.”

Jane Turner,
Construction Lead at NEPO
