

AN INTRODUCTION TO: NEPO209 HIGHWAY TECHNICAL SERVICES

OUR PURPOSE

Collaboration is at the heart of everything that NEPO does.

Our procurement solutions are the result of consultation with the public sector, suppliers and end users, so that we deliver positive outcomes for the communities we serve.

We offer a wide range of solutions which cover categories such as Construction, Energy, Fleet and Professional Services. Our portfolio of over 70 solutions is available for use by any public sector body across the UK via our free associate membership scheme.

OVERVIEW

NEPO209 Highway Technical Services solution covers various highway technical surveys including SCANNER surveys and other highway network surveys on designated routes, to assess the condition of named highways within the boundaries of Tyne & Wear, Tees Valley and Durham County Council as well as whole network coverage. Surveys provide processed data in the form of UKPMS Highway Maintenance Data Interchange Format (HMDIF) files. Other surveys include SCRIM, Grip Tester, Deflectograph, Ground Penetrating Radar and Machine Based Inventory.

BENEFITS

- Ability to award to first ranked supplier for a quick route to market
- Ability to run further competition between suppliers within each lot to maximise choice against your specific requirements
- Flexible and straight forward
- Transparency of rates for each supplier
- Compliant route to market, removing the need to undertake a procurement process
- NEPO undertake regular contract management
