

# AN INTRODUCTION TO: NEPO301 ELECTRICITY

PROCURING FOR YOU

## OUR PURPOSE

**Collaboration is at the heart of everything that NEPO does.**

Our procurement solutions are the result of consultation with the public sector, suppliers and end users, so that we deliver positive outcomes for the communities we serve.

We offer a wide range of solutions which cover categories such as Construction, Energy, Fleet and Professional Services. Our portfolio of over 70 solutions is available for use by any public sector body across the UK via our [free associate membership scheme](#).

## OVERVIEW

NEPO's award-winning Electricity framework allows UK public sector bodies to access low-carbon electricity and associated services.

NEPO301 Electricity welcomes non-domestic sites that are individual sites, or more commonly, a public sector organisation's full estate.

**Start date:**

1 April 2019

**End date:**

31 March 2025

**Supplier:**

EDF Energy

**Available for use by:**

Any public sector body in the UK

## ABOUT EDF ENERGY

EDF Energy is the UK's largest producer of low-carbon electricity, producing around one-fifth of the nation's electricity from its nuclear power stations, wind farms, coal and gas power stations. The company supplies around 31% of the industrial and commercial power market

## THE BENEFITS

- NEPO's dedicated energy team bring a wealth of experience in delivering energy contracts, and are on hand to provide advice and guidance throughout the procurement process.
- NEPO and EDF Energy work together to assist with the reduction of energy consumption and costs via demand side services including energy audits, energy efficiency initiatives and access to renewable generation technologies.
- Includes the option to place fixed price electricity contracts, with a variety of contract terms available.
- Comprehensive and hassle-free service delivery managed by NEPO, ensuring customer requirements are continuously exceeded.

## AWARD-WINNING SOCIAL VALUE

NEPO scooped the award for Social Value at the National GO Awards 2022, an annual celebration of the very best in UK procurement. The winning award submission focused on how NEPO and EDF work together to deliver social value within NEPO301 Electricity. [Find out more.](#)

## SUPPORTING THE UK'S NET ZERO AMBITIONS

Our strong partnership built with EDF Energy has resulted in:

- NEPO's members using electricity that is **100% zero carbon** with no cost to customers
- Estimated annual savings of approximately **76,800 tonnes of CO<sub>2</sub> emissions** (that's the equivalent to 384 Angel of the North statues!)
- 100% of the electricity supplied is **renewable** as verified by The Carbon Trust and backed by REGO (Renewable Energy Guarantees Origin) certificates
